

HoTT 2.0: OUR MULTI-SKILLS APPROACH
Save Time. Save Cost

HoTT 2.0
HANDS-ON TOOL TIME

Brand Energy & Infrastructure Services develops access and insulation plans around your specific onshore or offshore oil and gas needs. Our solutions are based on a multidisciplinary approach to ensure that your operations continue safely, smoothly and with minimum downtime. The specially trained BRAND operatives support the world's most renowned offshore clients.

Our **HoTT 2.0** concept will optimise labour costs on offshore platforms. Our operatives are multifunctional. Besides their expertise in scaffolding and insulating, they are qualified professionals in tracing, rope access and additional offshore services like flange fitting and banksman. The BRAND team can also assist in cleaning activities, helideck services (Helicopter Landing Officer, Helideck Assistants) and selected operatives are trained to act as operator of free fall lifeboats.

The BRAND HoTT 2.0 multi-skills approach requires less operatives for the same scope of work

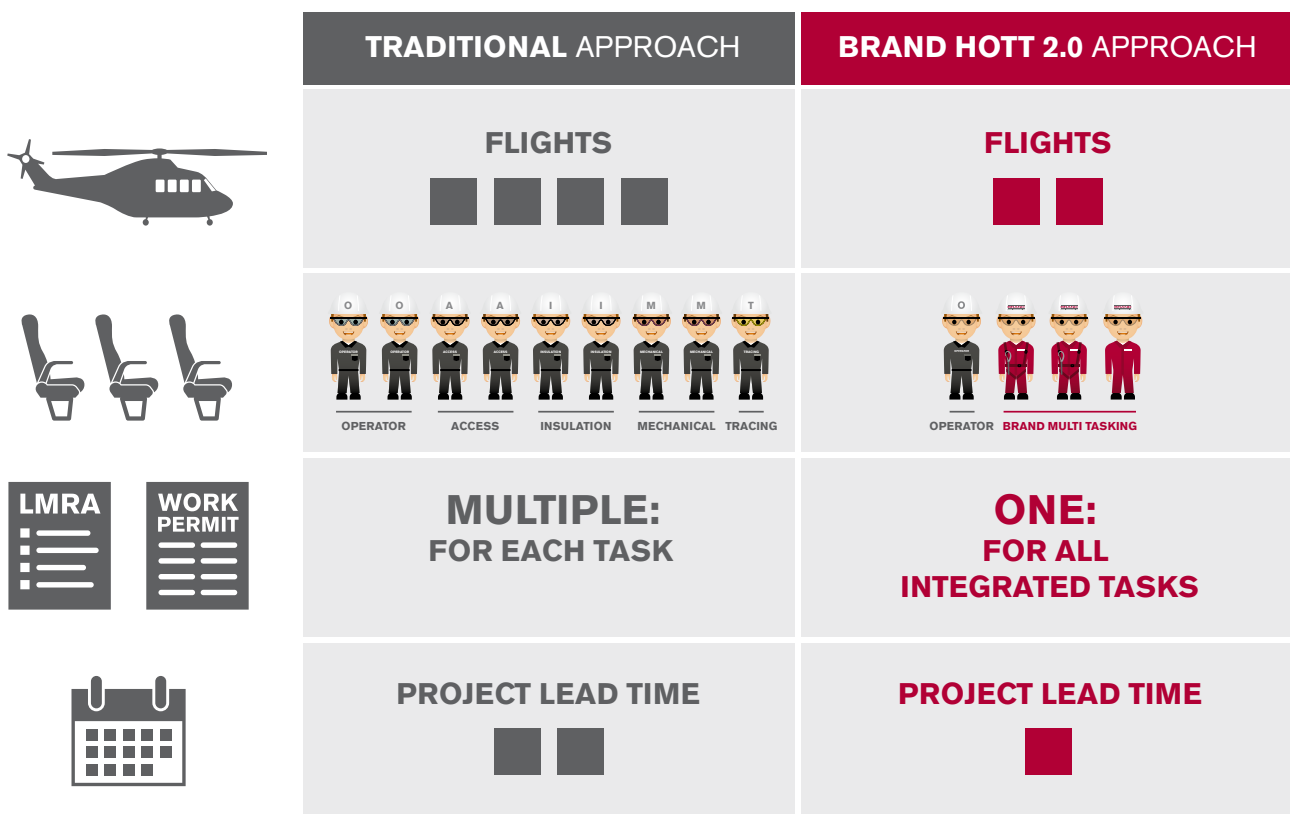

HoTT 2.0 - our multi-skills

SCAFFOLDING	CLEANING	HLO
ROPE ACCESS	NETTING	HDA
INSULATION	PAINTING SUPPORT	FFLBO
TRACING	BANKS MAN	MOB
FIREPROOFING	MECHANICAL	CRANE OPERATOR

HoTT 2.0 - Save Time. Save Cost

Compared with the traditional approach where each subcontractor is specialised in one discipline, the HoTT 2.0 concept of BRAND will save time and will save cost. The multi-skills approach of BRAND will result in a reduction of non-productive time, a reduction of mobilisation costs and in an improvement of lead times.

Performance with Passion

With more than 150 years of operational experience and more than 300 branches over 30 countries, Brand Energy & Infrastructure Services is a global market leader in specialised industrial and construction-related services for the energy, industrial and infrastructure sectors. Globally, BRAND supplies work access, corrosion management, atmospheric and immersion coatings, insulation services, fireproofing & refractory, mechanical services, forming & shoring and other complementary specialty services.

An annual turnover in excess of US\$3 billion dollars is realised in five important market segments: Downstream (refinery), Upstream (offshore and onshore) / Midstream (storage and transport), Energy, Industry and Infrastructure. The international organisations of Aluma Systems, Hünnebeck and SGB are also part of Brand Energy & Infrastructure Services.

The creation of added value for customers is central to our philosophy. At BRAND we work in accordance with the Brand Operating System which is based on the three core values: Safety, Productivity and Partnership.
