

IRATA is the sole global trade association in the work-at-height sector; it has member companies in every continent.

Industrial rope access has been developed by IRATA in the last 25 years to a point where it is the chosen means of access for much of the work in the offshore oil and gas industry as well as a range of projects in construction, civil engineering, the built and natural environment and much more. Its success is based on thorough training and strict work guidelines that deliver an unrivalled safe working record year after year.

MEMBERSHIP REQUIREMENTS

Each IRATA member is audited by an independent third party auditor to ensure that it has in place correct procedures and systems to ensure that industrial rope access is carried out in a safe manner. Each company is obliged to work in accordance with the conditions laid down in the International Code of Practice, which the Health and Safety Executive (UK) have commended.

All applicants must:

- Complete the irata application form submit one year's audited accounts (where applicable)
- Agree to abide by the Articles of Association.
- IRATA members are required to abide by a Code of Ethics and are subject to a strict audit by qualified independent inspectors to ensure that the Association's requirements of Quality Assurance, Safety, Training and Working Practices are being met.
